

Senior Full Stack Developer

About Us

Delishop is Phnom Penh's premier online supermarket. Our shelves are stocked with more than 9000 products in a wide range of categories. We offer our customers next-day deliveries, 7 days a week!

Position Summary

The Senior Full Stack Developer is responsible for bringing the platform to the next level and ensuring the stability of the core platform. S/he will report directly to our GM and will have the opportunity to participate in the next phase of growth at Delishop, developing the platform and adapting it to meet the needs of new verticals. S/he will have flexibility and responsibilities from day one with expectations to contribute to the growth of the company by bringing new ideas and solutions to the table.

Duties:

- Coordinate project work with junior staff under the supervision of the GM.
- Act as a technical lead to the junior staff
- Lead production troubleshooting.
- Participate in the ideation of how to optimise the platform.

Requirements:

- At least 4-5 years of working experience in development.
- Very good knowledge of ReactJS including workflows (eg: redux)
- Good knowledge of the LAMP stack (Linux, Apache/Nginx, MySQL, PHP).
- Experience creating and using APIs (REST)
- Solid experience with ExpressJS/lambda and other backend technologies
- Understand of token and authentication mechanisms (eg: JWT)
- Experience with AWS, Command line tools and Auto-Scaling Environments.
- Comfortable with GIT (CLI), including branching and merging.

Desirable Qualifications:

- Eager to try out and learn about new technologies and approaches every day.
- Attention to detail, problem solving and teambuilding skills.
- Able and confident to communicate in English with colleagues and clients.

- Curious about best practices and adopting them;
- Experience with leading development teams and interacting with clients.
- Works hard, party harder.

Compensation

- USD 1000-1200 per month
- Working Hours: TBD

Location: NCR (Delhi | Gurgaon | Noida)
